Dear Phil,

We at Pfizer, St. Louis Laboratories would like to thank you for presenting "Generations at Work" during our Diversity and Inclusion Week.

Your presentation was both informative and entertaining and set the tone for our week of diversity and inclusion events. The questions and comments after your presentation were most revealing, i.e., "this was fun; where can I learn more; can Phil return and present a deeper discussion on the subject of generations; and, does he do coaching too? This was just the kind of enthusiasm we needed to set the expectations for the remainder of the presentations and workshops.

Again, thank you for participating in Pfizer's Diversity and Inclusion Week and contributing to a very successful week. We look forward to working with you again!

Sincerely,

Heather D. Day
